## UNION SCHOOL DISTRICT NO. 2

---

### REPORT OF BOARD OF EDUCATION

---

*To the Parents and Citizens Residing in Union School District:*

In accordance with a longtime custom a brief annual report of the Board of Education is herewith submitted.

All the grades have been in session for the past year during the full period of 36 weeks. Excellent discipline has been maintained.

The teachers in the several departments have labored earnestly and faithfully for the education and welfare of the pupils, and the latter as a whole have appeared to be interested in their work and desirous of making due attainment. With the exception of Miss Wells, the same teachers as last year have been employed, with Miss Julia M. Swain in the High School, Miss E. Belle Calley in Grade VIII, as principal, Miss Mary B. Wells in Grades VI and VII, Miss Caroline P. Fowler in Grades IV and V, Miss Mary E. Taylor in Grades II and III, Miss Clara M. Ingalls in the Primary Department, Mrs.

Katherine P. Crafts, instructor in music, and Harry D. Wells in manual training. Edward J. Glines is janitor.

It will be remembered that at the time of the last report the accommodations for the manual training department were very limited and inadequate, but the Board is happy to state that at the last annual meeting, the District generously authorized a new building for this purpose. A building committee was accordingly appointed by the Board, consisting of Messrs. F. N. Gilman, W. C. White, and H. H. Hutchinson, who selected a site on the school grounds and contracted with Lewis M. Keezer of Bristol, as architect and builder, to erect a two-story building, the lower floor to be used for manual training and the upper room for general purposes, but which ultimately proved to be well adapted to the needs of the High School, which is now located therein. The building was completed during the summer and is a fitting testimonial to the taste and good judgment of the committee and fulfils its purposes admirably.

As a rule the health of the pupils has been good. The janitor has been directed to pay careful attention to the cleanliness and sanitation of the school buildings, and apparently has attended to these duties.

Instruction has been given in physiology, hygiene and physical culture, and the constitution of New Hampshire. The fire-drill has been practiced frequently. During the year manual training has been taught in several of the grades. The boys above the 5th grade have received elementary training in laying out their work

and in the use of tools, under the direction of Mr. Wells. They have built the benches and some other apparatus used in the new room, and recently have been making skis for their personal use.

The girls have received the usual instruction in various kinds of useful hand sewing and needle-work and in addition, as a new and excellent sewing machine has been purchased during the year for their use, have been taught the use of that, in which some of the older girls are becoming quite proficient. In the lower grades instruction has been given in basketry, cutting and light manual training. The Memorial exercises of the schools in the Town Hall were both interesting and well attended.

The exhibition military drill of the boys under the direction of Wm. H. Hill, a veteran of the Spanish-American war, was a new and special feature which the boys executed very creditably.

This drill was probably the forerunner and cause of the formation of Boy Scout Troops in Bristol, under the command of Scout Master Hill, and of the Camp-Fire Girls of Bristol under the care and direction of Mrs. Maude Ferguson, both of which are very helpful to the boys and girls. Following the Memorial exercises, the audience marched to the schoolhouse to attend the annual exhibition of Arts and Crafts in drawing, sewing, basketry, fancy articles, cutting, maps, etc., which was pronounced excellent.

During the spring term similar exercises will occur and all persons are cordially invited to attend.

During the autumn a hydrant was placed near the grandstand in Kelley Park and an enlarged new skating rink prepared, which has been flooded and frozen at times, and furnished with electric light, so that the young folks have had a fine opportunity for skating and coasting thereon.

The finances of the District, as may be seen by reference to the annual report of the Treasurer, are in a satisfactory condition.

It is hoped that parents and teachers will encourage all pupils to persevere in the study of music under the excellent tutelage of Mrs. Crafts.

By vote of the Board there are now eight grades below the High School, instead of nine. Consequently pupils hereafter will be expected to complete the work in these grades in eight years instead of nine, thus enabling them to enter the High School for a two years' course, one year earlier than heretofore. Oftentimes those parents who at first are in no haste to have their children enter the public schools, awake to the fact that these children are 15 or 16 years of age before they are fitted to enter the High School of two or four years.

It is the hope of the Board that by making an early start and with the reduction of the time required in the grades by a year, more pupils will feel able and have the disposition to avail themselves of the splendid opportunity and advantages offered by our High School course under the present most excellent teacher.

Whatever may be the vocation the pupil has in

view, he should not fail to take the two years' course offered in this department, for reasons which have been so frequently and elaborately urged that it seems unnecessary to repeat them. One has only to look about quite casually to see the difference in ability to make an opportunity for oneself in life, generally speaking, between those who leave school at an early age and those who persist in at least securing the great benefit of the full ten years' course. As a rule, those who leave early never rise above the minimum wage and minimum ambition or ideal. There are of course happy exceptions to this rule for which we are thankful, but we believe that the rule itself holds good.

Once more we briefly urge the parents and all citizens to visit the schools more frequently, to take a greater interest in their welfare and success, to make the home influence, which is most important, right, the street influence right, and every influence wherein adults are brought in contact with children, right.

If all parents and citizens would bear in mind that flippancy, gossip, backbiting, scolding, crossness, fault-finding, vulgarity, profanity, cursing, infidelity, and wickedness of all kinds, which are much more common than small-pox, but are more readily taken, on their part in public or in private, are reflected in the lives of the children and may have an everlasting influence upon them, they would be much more circumspect at least, if not really better men and women themselves, by a sort of reciprocal influence.

It is expected that the present winter term will close March 26th, and after a vacation of two weeks, the spring term will open April 12 and close on June 18.

Last year the graduating class had so few members that it was not thought advisable to have graduating exercises, but the present class is large enough to warrant a return to a public graduation, and it is expected that the same will occur at the end of the spring term.

The present members of the Board are Messrs. Frank N. Gilman, Chairman ; Wm. C. White, Secretary ; Mrs. Ada B. Cavis ; Mrs. Mabel M. Ladd ; Homer H. Hutchinson, and Ira A. Chase. Mr. Albro Wells, who had served so long and so efficiently as a member of the Board, since our last report, and to the deep regret of his associates and all who knew him, has passed to the Eternal realm of life and light and joy.

By his passing the community has lost a faithful servant, an excellent citizen and a fine type of man. Mr. Hutchinson was duly elected his successor in office.

The roll of honor, or perfect attendance, by term and for the year, is hereto appended.

Respectfully submitted,

For the Board of Education,

IRA A. CHASE, Superintendent.

## REPORT OF SCHOOL BOARD

---

You will find the report of the school committee, not one glowing with satisfaction with what has been done ; but rather a report of what is needed to put the schools in a good working condition.

The teachers, in most part, have done their work as well as could be expected. Teachers are not at their best unless they are supplied with all the necessary equipment of a good school. When the school year opened there was a very limited amount of school supplies on hand. After a long time and many delays the essential supplies were put into the hands of the teachers. But very much of very desirable material for primary scholars especially we have not got. The school books of the town are in a most deplorable condition. There is only a scanty supply of many kinds, ancient as well as modern, worn, dirty and out of the binding. There should be a new set of books in arithmetic, language, reading and spelling, and all this filthy stuff should be burned.

One of the most essential qualities of a good teacher is cleanliness. She should not only be clean in person and neat in dress, herself, but she should insist on all the scholar being clean in person and neat in dress. No scholar should be allowed to touch a book or pencil with hands unclean. "Handle with care" is a good motto for the school room.

All the school buildings and the school grounds should be put in a clean and attractive condition. A little money in paint and soap and water will go a great way in making a school-room wholesome and attractive. A few flowers in the school-room and the yard would be most desirable and they would furnish many opportunities for the teachers to give a talk in botany and how plants grow.

All the schoolhouses are very deficient in good blackboard. There is never too much. A good blackboard is very essential for drawings, supplementary work and for good teaching in many ways.

We want good schools. But in order to have good schools we must not only have good and attractive schoolhouses, well equipped, but the teachers must be well qualified by nature and by training. Even more, the teachers must be supervised or perhaps methodized by an expert in pedagogy. We mean by this that it is necessary to have distinct supervision, where several towns unite and put their schools under the supervision of a person particularly trained in school work. Until this is done the country schools of New Hampshire will be far below those of Massachusetts and other neighboring states.

It is needless to say that it requires money to carry on any kind of enterprise. If the people want good schools and many weeks of school they must vote to raise the money. This is a hard thing to do when every one is paying all the tax he is able to pay. The farms in this section are on the wane and barely furnish a living for the people who occupy them.

We wish to call the attention of every fair minded person in Bristol to look at the inequality which the division of this town into two districts makes. This special

district of the village was made by an act of the legislature many years ago when the rest of the town was prosperous and there were scholars enough for four or five good schools. Now the conditions are entirely different. About all the wealth is at the hub, and there are less than forty children of school age scattered over a large area in the outlying sections.

Let the voters of Union District, which was created by special privilege, vote to take in these poor scattered children, that they too may enjoy the fine schools of our village.

C. N. MERRILL, Treasurer.

We wish to call the attention of the voters of the precinct to the fact that we now have as good a battery system for the fire alarm as can be found in New England, and that every bell and box in town works perfectly under the new system. We now feel we have all the protection that is possible from this source. We have purchased additional hose until now we are well provided in that line. We have also now a dozen or more fire extinguishers for the use of small fires and chimneys. One-half dozen of these will always be found in the back entrance to the post office, and we advise the use of them as far as possible before ringing alarms, as each alarm costs about \$50, and all we are able to save in this way can well be expended in betterments and improvements of the system.

We wish to again thank the public for the way they have helped us in the past year to keep down expenses and allow us to improve the system accordingly.

There are outside unpaid bills of about \$80.

## MINOT-SLEEPER LIBRARY

---

During the past year the library has been extensively used by the public, showing the just appreciation in which it is held by its patrons as an educational and humanizing force in our community. About nine thousand books have been taken out from the circulating department.

Although many of the best magazines and periodicals are to be found on the tables, whose careful perusal will not only entertain but will enable one to keep well abreast of the thought and activities of the age, yet owing to outside attractions, principally motion pictures, the reading department has not been used by quite as many readers as in past years.

By the will of the late Annie Douglas (Green) Robinson, the well-known writer of prose and poetry, under the pen name of Marian Douglas, her miscellaneous library was in large part generously donated to the library and nearly two hundred volumes of greater or less value have been removed to the library, though not yet catalogued. In addition, about two hundred other books have been purchased and placed on the shelves by the book committee.

The History of Andover, N. H., has been added by exchange.

The reference library, the nucleus of which was given by Miss Abigail Minot and increased by scientific works from a portion of the funds given by Mr. and Mrs. D. L. Davis, has been added to from time to time, until it is a very valuable part of the library and well worth consulting by all who have questions or problems within its scope. The original donors who so kindly gave the building and a portion of the books undoubtedly thought they had provided space ample for many years, but if they could have realized how rapidly the space would be filled, they would surely have provided a larger building. It is now a serious problem to arrange the books and find shelf room for them. The difficulty is increasing each year. From the beginning the trustees have administered the affairs of the library as economically as possible, but in the very near future an addition must be made to the present building or its facilities and usefulness will be considerably lessened by the overcrowding of space which must necessarily occur.

It is with unfeigned sorrow that the trustees report the death of Hon. Richard W. Musgrove, who had been chairman of the Board since its organization in December, 1884, a period of nearly 30 years.

From the outset Captain Musgrove was deeply interested in the usefulness and success of the library, and was always ready to render it assistance personally and

through the columns of the Enterprise. At the recent annual meeting of the trustees, Mr. Fred H. Ackerman, for many years foreman of the Enterprise office, was elected committee to draft resolutions which are herewith appended.

The following are the officers of the library for the year ensuing, viz. : President of the Board, Ira A. Chase ; Secretary, Channing Bishop ; Treasurer, Geo. H. Calley ; Executive Committee, Ira A. Chase, Geo. H. Calley, Fred H. Ackerman ; Book Committee, Karl G. Cavis, Channing Bishop, Wm. C. White ; Librarian, Mary A. Dodge.

## RESOLUTIONS

WHEREAS, Since our last annual meeting, it has pleased Almighty God to relieve from earthly duties our esteemed chairman of the Board of Trustees, Captain Richard W. Musgrove, therefore we bow in submission, keenly feel our loss, and reverently cherish his memory. His life work was for the uplifting of the community in which he lived. In business he was scrupulously honest; in affairs of state, fearless for the right; to his country, a loyal patriot; in the church, an indefatigable worker; in everything pertaining to the improvement of the community in which he lived, he was ever in the foremost ranks. He was one of the leading pioneers in the foundation of the Minot-Sleeper Library, and the honored chairman of the Board of Trustees from its organization in 1884, till the time of his death.

As the author of the History of Bristol, published in 1904, in the preparation and completion of which he labored zealously for twenty-five years, he builded for himself an intellectual monument which will perpetuate his memory. As editor and proprietor of the Bristol Enterprise he was a power in town and state for the uplifting and upbuilding of clean journalism. His achievements should be an inspiration to others for many generations. Therefore, be it

*Resolved*, That the Trustees of the Minot-Sleeper Library deeply deplore the loss sustained in the death of Captain Musgrove, and extend to the family, the com-

munity, and his wide circle of friends, their heartfelt sympathy.

*Resolved,* That these resolutions be spread upon the records of Minot-Sleeper Library, and a like copy sent to the family of the deceased.

FRED H. ACKERMAN,  
Committee for the Trustees.
